

MY FAMILY DOCTOR

PARTNERING WITH PATIENTS FOR HEALTHY LIVING[®]

December 4, 2018

To my dear patients,

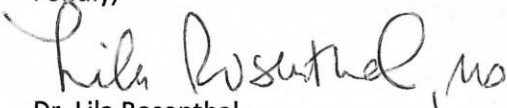

It is with a heavy heart that I inform you that, in the spring of 2019, My Family Doctor will be closing its doors. For eight and half years, against all odds, MFD has been proudly meeting the primary health care needs of individuals and families in Boulder County and beyond. During the better part of a decade, MFD has endured despite tremendous upheaval in the health care industry. Although we have weathered dramatic change, the current insurance climate has become increasingly destabilizing. As for many small private practices, the challenges of running an insurance-based practice during an era of ever-increasing complexity in health care have become overwhelming.

I have made my best effort, unsuccessfully, in recent years to become acquired by one of several hospital systems in the area. As such, it is time for me to switch gears to be more present with my family and to take better care of my aging self. I will begin working for CU-Boulder in the student health clinic once MFD is closed and regret that I will only be able to provide care for students enrolled in that institution.

Together with Paula, I am determined to make your transition to a new primary care medical home as smooth as possible. In the coming months, we hope to provide you with a list of recommended practitioners able to provide exceptional care. If you already know where you would like your records transferred, please advise us at your convenience.

I also want to take this opportunity to express my most sincere gratitude to you for placing your trust in us.

Fondly,

Dr. Lila Rosenthal
